Management Commentary

“Rounding out a solid year, our diversified portfolio generated a 29.2% increase in adjusted net investment income for the fourth quarter, reflecting continued growth in recurring interest and fee income with an additional boost in income from equity investments,” said Edward Ross, Chairman and CEO of Fidus Investment Corporation. “For the year, our plan to stay the course, selectively investing in high quality companies that generate strong free cash flow and have positive long-term outlooks, was effective. NAV per share grew for the fourth consecutive year, reflecting positive portfolio returns, and we closed investments totaling \$212.3 million while receiving repayments totaling \$188.3 million. The overall health of our portfolio along with our adherence to underwriting disciplines focused on capital preservation place us in a durable position to selectively grow our portfolio with a focus on our long-term goal of generating attractive risk-adjusted returns from our debt and equity investments.”

**(1) Supplemental information regarding adjusted net investment income:**

On a supplemental basis, we provide information relating to adjusted net investment income, which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Adjusted net investment income represents net investment income excluding any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The management agreement with our advisor provides that a capital gains incentive fee is determined and paid annually with respect to cumulative realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized losses. In addition, we accrue, but do not pay, a capital gains incentive fee in connection with any unrealized capital appreciation, as appropriate. As such, we believe that adjusted net investment income is a useful indicator of operations exclusive of any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. Reconciliations of net investment income to adjusted net investment income are set forth in Schedule 1.

**Fourth Quarter 2018 Financial Results**

The following table provides a summary of our operating results for the three months ended December 31, 2018 as compared to the same period in 2017 (dollars in thousands, except per share data):

Net investment income per share	\$ 0.45	\$ 0.31	\$ 0.14	45.2%

Net increase in net assets resulting from operations per share	\$ 0.49	\$ 0.51	\$ (0.02)	(3.9%)

The \$5.1 million increase in total investment income for the three months ended December 31, 2018 as compared to the same period in 2017 was primarily attributable to (i) a \$1.3 million increase in total interest income (including payment-in-kind interest income) resulting from higher average debt investment balances outstanding, partially offset by a decrease in weighted average debt investment yield, (ii) a \$2.9 million increase in dividend income from equity investments, and (iii) a \$1.0 million increase in fee income resulting primarily from an increase in prepayment fee income.

For the three months ended December 31, 2018, total expenses, including income tax provision, were \$11.3 million, an increase of \$1.9 million or 20.1%, from the \$9.4 million of total expenses, including income tax provision, for the three months ended December 31, 2017. The increase was primarily attributable to (i) a \$1.3 million increase in interest and financing expenses due to an increase in average borrowings outstanding and an increase in weighted average interest rate on borrowings, (ii) a \$1.0 million net increase in base management and income incentive fees due to higher average total assets and higher pre-incentive fee net investment income, and (iii) partially offset by a \$(0.7) million decrease in the capital gains incentive fee accrued.

Net investment income increased by \$3.3 million, or 42.4%, to \$10.9 million during the three months ended December 31, 2018 as compared to the same period in 2017, as a result of the \$5.1 million increase in total investment income, as compared to only a \$1.9 million increase in total expenses, including income tax provision. Adjusted net investment income (1), which excludes the capital gains incentive fee accrual, increased by \$2.5 million, or 29.2%, to \$11.2 million due to the \$5.1 million increase in total investment income, as compared to a \$2.6 million increase in total expenses, excluding the accrued capital gains incentive fee.

For the three months ended December 31, 2018, the total net realized gain on investments, net of income tax provision on realized gains, was \$5.5 million, as compared to total net realized gain on investments, net of income tax provision on realized gains, of \$5.0 million for the same period in 2017.

#### Full Year 2018 Financial Results

Net increase in net assets resulting from operations per share	\$ 2.02	\$ 1.87	\$ 0.15	8.0%

The \$7.8 million increase in total investment income for the year ended December 31, 2018 as compared to the same period in 2017 was primarily attributable to (i) a \$5.3 million increase in total interest income (including payment-in-kind interest income) resulting from higher average debt investment balances outstanding, partially offset by a decrease in weighted average debt investment yield, (ii) a \$2.1 million increase in dividend income due to increased levels of distributions received from equity investments, and (iii) a \$0.3 million increase in fee income resulting from an increase in prepayment fee income, and partially offset by a decrease in debt amendment fee income.

For the year ended December 31, 2018, total expenses, including income tax provision, were \$41.7 million, an increase of \$6.7 million or 19.3%, from the \$34.9 million of total expenses, including income tax provision, for the year ended December 31, 2017. The increase was primarily attributable to (i) a \$3.1 million increase in interest and financing expenses due to an increase in average borrowings outstanding and an increase in weighted average interest rate on borrowings, (ii) a \$2.1 million net increase in base management and income incentive fees due to higher average total assets and higher pre-incentive fee net investment income, and (iii) a \$0.9 million increase in the capital gains incentive fee accrued.

Net investment income increased by \$1.1 million, or 3.2%, to \$34.8 million during the year ended December 31, 2018 as compared to the same period in 2017, as a result of the \$7.8 million increase in total investment income, as compared to only a \$6.7 million increase in total expenses, including income tax provision. Adjusted net investment income <sup>(1)</sup>, which excludes the capital gains incentive fee accrual, increased by \$2.0 million, or 5.5%, to \$37.7 million due to the \$7.8 million increase in total investment income, as compared to a \$5.8 million increase in total expenses, excluding the accrued capital gains incentive fee.

For the year ended December 31, 2018, the total net realized loss on investments, net of income tax provision on realized gains, was \$(11.0) million, as compared to total net realized gain on investments, net of income tax provision on realized gains, of \$15.7 million for the same period in 2017.

#### First Quarter 2019 Dividend of \$0.39 Per Share Declared

On January 31, 2019, our Board of Directors declared a regular quarterly dividend of \$0.39 per share payable on March 22, 2019 to stockholders of record as of March 8, 2019.

When declaring dividends, our Board of Directors reviews estimates of taxable income available for distribution, which differs from consolidated income under generally accepted accounting principles due to (i) changes in unrealized appreciation and depreciation, (ii) temporary and permanent differences in income and expense recognition, and (iii) the amount of undistributed taxable income carried over from a given year for distribution in the following year. The final determination of 2019 taxable income, as well as the tax attributes for 2019 dividends, will be made after the close of the 2019 tax year. The final tax attributes for 2019 dividends will generally include ordinary taxable income but may also include capital gains, qualified dividends and return of capital.

Fidus has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when we declare a cash dividend, stockholders who have not "opted out" of the DRIP at least two days prior to the dividend payment date will have their cash dividends automatically reinvested in additional shares of our common stock. Those stockholders whose shares are held by a broker or other financial intermediary may receive dividends in cash by notifying their broker or other financial intermediary of their election.

**Supplemental Information Regarding Adjusted Net Investment Income**

On a supplemental basis, we provide information relating to adjusted net investment income, which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Adjusted net investment income represents net investment income excluding any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The management agreement with our advisor provides that a capital gains incentive fee is determined and paid annually with respect to cumulative realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized losses for such year, less the aggregate amount of any capital gains incentive fees paid in all prior years. In addition, we accrue, but do not pay, a capital gains incentive fee in connection with any unrealized capital appreciation, as appropriate. As such, we believe that adjusted net investment income is a useful indicator of operations exclusive of any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. The following table provides a reconciliation of net investment income to adjusted net investment income for the three months and years ended December 31, 2018 and 2017.

	(\$ in thousands)		(\$ in thousands)	
	Three Months Ended		Years Ended	
	December 31, (unaudited)		December 31, (unaudited)

- (1) Adjusted net investment income per share amounts are calculated as adjusted net investment income dividend by weighted average shares outstanding for the period. Due to rounding, the sum of net investment income per share and capital gains incentive fee expense (reversal) amounts may not equal the adjusted net investment income per share amount presented here.
