### Management Commentary

"We continued to build our portfolio of income-producing assets and equity investments during the fourth quarter and ended the year with \$957.9 million of assets under management on a fair value basis. Our enlarged debt portfolio generated adjusted NII of \$0.65 per share, well in excess of the base dividend of \$0.43 per share," said Edward Ross, Chairman and CEO of Fidus Investment Corporation. "For the year, we grew adjusted NII per share by 36.2% to \$2.56 per share, realized net gains of \$0.85 per share and distributed a total of \$2.88 per share to our shareholders, demonstrating our ability to grow while maintaining an overall healthy portfolio. For 2024, we are well positioned to continue selectively growing the portfolio and intend to remain focused on our long-term goals of growing net asset value over time, preserving capital and delivering attractive risk-adjusted returns to our shareholders."

#### **(1) Supplemental information regarding adjusted net investment income:**

*On a supplemental basis, we provide information relating to adjusted net investment income, which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Adjusted net investment income represents net investment income excluding any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The management agreement with our investment adviser provides that a capital gains incentive fee is determined and paid annually with respect to cumulative realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized losses. In addition, we accrue, but do not pay, a capital gains incentive fee in connection with any unrealized capital appreciation, as appropriate. As such, we believe that adjusted net investment income is a useful indicator of operations exclusive of any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. Reconciliations of net investment income to adjusted net investment income are set forth in Schedule 1.*

#### First Quarter 2024 Dividends Totaling \$0.65 Per Share Declared

On February 13, 2024, our board of directors declared a base dividend of \$0.43 per share and a supplemental dividend of \$0.22 per share for the first quarter. The dividends will be payable on March 27, 2024, to stockholders of record as of March 20, 2024.

When declaring dividends, our board of directors reviews estimates of taxable income available for distribution, which differs from consolidated income under GAAP due to (i) changes in unrealized appreciation and depreciation, (ii) temporary and permanent differences in income and expense recognition, and (iii) the amount of undistributed taxable income carried over from a given year for distribution in the following year. The final determination of 2024 taxable income, as well as the tax attributes for 2024 dividends, will be made after the close of the 2024 tax year. The final tax attributes for 2024 dividends will generally include ordinary taxable income but may also include capital gains, qualified dividends and return of capital.

Fidus has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when we declare a cash dividend, stockholders who have not "opted out" of the DRIP at least two days prior to the dividend payment date will have their cash dividends automatically reinvested in additional shares of our common stock. Those stockholders whose shares are held by a broker or other financial intermediary may receive dividends in cash by notifying their broker or other financial intermediary of their election.

#### Schedule 1

#### Supplemental Information Regarding Adjusted Net Investment Income

On a supplemental basis, we provide information relating to adjusted net investment income, which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Adjusted net investment income represents net investment income excluding any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The management agreement with our investment advisor provides that a capital gains incentive fee is determined and paid annually with respect to cumulative realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized losses for such year, less the aggregate amount of any capital gains incentive fees paid in all prior years. In addition, we accrue, but do not pay, a capital gains incentive fee in connection with any unrealized capital appreciation, as appropriate. As such, we believe that adjusted net investment income is a useful indicator of operations exclusive of any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. The following table provides a reconciliation of net investment income to adjusted net investment income for the three and twelve months ended December 31, 2023 and 2022.

	(\$ in thousands) Three Months Ended December 31, (unaudited)		(\$ in thousands) Years Ended December 31, (unaudited)	
	2023	2022	2023	2022
	Net investment income	\$ 16,939	\$ 12,484	\$ 65,106
Capital gains incentive fee expense (reversal)	1,898	161	2,405	(432)
Adjusted net investment income <sup>(1)</sup>	\$ 18,837	\$ 12,645	\$ 67,511	\$ 46,117

	(Per share) Three Months Ended December 31, (unaudited)		(Per share) Years Ended December 31, (unaudited)	
	2023	2022	2023	2022
	Net investment income	\$ 0.58	\$ 0.51	\$ 2.47
Capital gains incentive fee expense (reversal)	0.07	-	0.09	(0.02)

Adjusted net investment income <sup>(1)</sup>	\$	0.65	\$	0.51	\$	2.56	\$	1.88
---	----	------	----	------	----	------	----	------

(1) Adjusted net investment income per share amounts are calculated as adjusted net investment income dividend by weighted average shares outstanding for the period. Due to rounding, the sum of net investment income per share and capital gains incentive fee expense (reversal) amounts may not equal the adjusted net investment income per share amount presented here.
