- Net asset value of \$209.5 million, or \$15.22 per share, as of March 31, 2014

Management Commentary

"During the first quarter we remained disciplined in our approach and true to our strategy of investing in high-quality companies that operate in industries we know well, that generate strong free cash flow and have positive long-term outlooks. Market conditions were sound with a healthy level of deal flow activity. As a result, our business fundamentals remained strong," said Edward Ross, Chairman and CEO of Fidus Investment Corporation. "We invested \$17.3 million, which contributed to the 15% year-over-year growth of our investment portfolio on a cost basis. We received repayments from four companies and realized net capital gains of approximately \$1.8 million. We remain patient and focused on capital preservation as we pursue attractive risk adjusted returns for our shareholders. Our liquidity position, comprised of \$40.7 million of cash and access to \$80.5 million in additional SBA debentures, positions us well to continue to selectively grow and diversify our portfolio as the year unfolds."

Added Mr. Ross, "Our Board of Directors regularly reviews our distribution policy. We are pleased to announce that in light of our spillover income and the net capital gains we realized during the quarter, the board has declared two special dividends totaling \$0.10 per share payable in July and August of 2014, in addition to our regular quarterly dividend of \$0.38 per share for the second quarter of 2014."

(1) Supplemental information regarding adjusted net investment income:

On a supplemental basis, we provide information relating to adjusted net investment income, which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Adjusted net investment income represents net investment income excluding any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The management agreement with our advisor provides that a capital gains incentive fee is determined and paid annually with respect to cumulative realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized losses. In addition, we accrue, but do not pay, a capital gains incentive fee in connection with any unrealized capital appreciation, as appropriate. As such, we believe that adjusted net investment income is a useful indicator of operations exclusive of any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. Reconciliations of net investment income to adjusted net investment income are set forth in Schedule 1.

First Quarter 2014 Financial Results

Total investment income was \$10.6 million for the three months ended March 31, 2014, an increase of \$0.7 million, or 7.6%, over the \$9.8 million of total investment income for the three months ended March 31, 2013. This increase was primarily attributable to a \$0.5 million increase in interest income and a \$0.2 million increase in fee income from investments. The increase in interest and fee income is primarily due to higher average levels of outstanding debt investments and investment activity during the quarter.

Total expenses, including income tax provision, were \$5.1 million for the three months ended March 31, 2014, an increase of \$0.2 million, or 4.6%, over the \$4.9 million of total expenses for the three months ended March 31, 2013. The base management fee increased \$0.1 million due to higher average total assets less cash and cash equivalents during the first quarter of 2014. The capital gains incentive fee (reversal) increased \$0.3 million to \$0.4 million primarily due to a \$2.1 million net loss on investments during the quarter. The administrative service fee, professional fees and other general and administrative expenses totaled \$1.1 million, an increase of \$0.4 million, or 62.7%, reflecting increased personnel and a change in the timing of audit related work.

Net investment income ("NII") for the three months ended March 31, 2014 increased by 10.6% to \$5.4 million, or \$0.40 per share, compared to \$4.9 million, or \$0.38 per share, for the first quarter of 2013. Adjusted NII was \$5.1 million, or \$0.37 per share, for the three months ended March 31, 2014, compared to \$4.9 million, or \$0.38 per share, for the first quarter of 2013. Adjusted NII is defined as net investment income excluding any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses on investments.

For the three months ended March 31, 2014, Fidus realized capital gains on investments, net of applicable taxes, of \$1.8 million, which consisted of gains on investments in two portfolio companies.

For the three months ended March 31, 2014, Fidus recorded net unrealized depreciation on investments of \$3.9 million, which is comprised of (i) unrealized depreciation on investments of \$1.9 million related to the reversal of unrealized appreciation upon the exit of investments during the quarter, (ii) net unrealized depreciation of \$3.4 million on debt investments and (iii) net unrealized appreciation of \$1.4 million on equity investments.

As a result of these events, Fidus' net increase in net assets resulting from operations during the three months ended March 31, 2014, was \$3.4 million, or \$0.25 per share, a decrease of \$1.3 million, or 27.2%, compared to a net increase in net assets resulting from operations of \$4.6 million, or \$0.36 per share, during the three months ended March 31, 2013.

Per share income results for the quarter ended March 31, 2014 are based on weighted average shares outstanding of 13.8 million, compared to 12.9 million weighted average shares outstanding for the first quarter of 2013. This increase reflects the common equity offering Fidus completed in February 2013, which was completed at a price accretive to net asset value.

Portfolio and Investment Activities

As of March 31, 2014, Fidus had debt and equity investments in 37 portfolio companies with a total fair value of \$310.4 million, or approximately 96% of cost. The Company's average portfolio investment on a cost basis was \$8.7 million and the Company held equity ownership in 91.9% of its portfolio companies. During the first quarter ended March 31, 2014, Fidus made investments of \$17.3 million in one new and four existing portfolio companies and received proceeds from sales and repayments of investments, including realized capital gains, totaling \$13.6 million. As of March 31, 2014, the weighted average yield on debt investments (excluding any debt investments on non-accrual) was 14.4%.

First quarter 2014 investment activity included the following new portfolio company investments:

• FAR Research, Inc., is a specialty and fine chemical company that develops, manufactures, and supplies complex, low-volume custom chemicals. Fidus invested \$8.7 million in senior secured notes and common equity.

Fidus had investments in one portfolio company on non-accrual status as of March 31, 2014, which represented 2.3% of the cost of the portfolio and 0.0% of the fair value of the portfolio as of that date.

Liquidity and Capital Resources

At March 31, 2014, the Company had \$40.7 million in cash and cash equivalents and SBA debentures outstanding of \$144.5 million with an annual weighted average interest rate of 4.6%. Unfunded SBA commitments totaled \$30.5 million as of March 31, 2014 with access to an additional \$50.0 million available for future use.

Subsequent Events

- In May 2014, we received \$6.4 million as payment in full on the subordinated notes of Convergent Resources, Inc.
- In May 2014, we invested \$6.0 million in the senior secured notes of Oaktree Medical Centre, P.C., doing business as Pain Management Associates, an operator of healthcare clinics and toxicology laboratories focused on the treatment of patients suffering from chronic pain or acute pre/post-operative conditions.

Second Quarter 2014 Dividend of \$0.38 Per Share and Two Special Dividends Totaling \$0.10 Per Share Declared

On May 5, 2014, the Company's Board of Directors declared a regular quarterly dividend of \$0.38 per share for the second quarter of 2014. The Company's dividend will be payable on June 27, 2014 to stockholders of record as of June 13, 2014. In addition, the Board of Directors declared two special cash dividends totaling \$0.10 per share, comprised of two equal payments of \$0.05 per share in July and August of 2014. These special dividends will be payable on July 31, 2014 to stockholders of record as of July 25, 2014 and on August 29, 2014 to stockholders of record as of August 25, 2014.

When declaring dividends, the Company's Board of Directors reviews estimates of taxable income available for distribution, which differs from consolidated income under generally accepted accounting principles due to (i) changes in unrealized appreciation and depreciation, (ii) temporary and permanent differences in income and expense recognition, and (iii) the amount of undistributed taxable income carried over from a given year for distribution in the following year. The final determination of 2014 taxable income, as well as the tax attributes for 2014 dividends, will be made after the close of the 2014 tax year. The final tax attributes for 2014 dividends will generally include ordinary taxable income but may also include capital gains, qualified dividends and return of capital.

Fidus has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend, stockholders who have not "opted out" of the DRIP at least three days prior to the dividend payment date will have their cash dividends automatically reinvested in additional shares of the Company's common stock. Those stockholders whose shares are held by a broker or other financial intermediary may receive dividends in cash by notifying their broker or other financial intermediary of their election.

Supplemental Information Regarding Adjusted Net Investment Income

On a supplemental basis, we provide information relating to adjusted net investment income, which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Adjusted net investment income represents net investment income excluding any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The management agreement with our advisor provides that a capital gains incentive fee is determined and paid annually with respect to cumulative realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized losses for such year. In addition, we accrue, but do not pay, a capital gains incentive fee in connection with any unrealized capital appreciation, as appropriate. As such, we believe that adjusted net investment income is a useful indicator of operations exclusive of any capital gains incentive fee expense or (reversal) attributable to realized and unrealized gains and losses. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. The following table provides a reconciliation of net investment income to adjusted net investment income for the three months ended March 31, 2014 and 2013.

	(\$ in thousands) Three months ended March 31, (unaudited)		
	2014	2013	
Net investment income	\$ 5,444	\$ 4,923	
Capital gains incentive fee expense (reversal)	(384)	(57)	
Adjusted net investment income	\$ 5,060	\$ 4,866	
	(Per share) Three months ended March 31, (unaudited)		
	2014	2013	
Net investment income	\$ 0.40	\$ 0.38	
Capital gains incentive fee expense (reversal)	(0.03)		
Adjusted net investment income (1)	\$ 0.37	\$ 0.38	

(1) Adjusted net investment income per share amounts are calculated as adjusted net investment income dividend by weighted average shares outstanding for the period. Due to rounding, the sum of net investment income per share and capital gains incentive fee expense or (reversal) amounts may not equal the adjusted net investment income per share amount presented here.
